

STICHTING HABAIT

ANNUAL ACTIVITY REPORT 2025

During 2025, Stichting Habait continued to provide a safe and permanent home for elderly and vulnerable farm animals that could no longer remain in their previous living situations.

Our activities in 2025

- Providing daily food, clean water, shelter and individual care for the animals living at the sanctuary.
- Arranging veterinary examinations, medical treatment, medication and ongoing health monitoring when required.
- Adapting the animals' living environment to support their mobility, comfort and quality of life.
- Maintaining and improving shelters, fences, pastures and other facilities at the farm.
- Providing suitable bedding, hay and specialised nutrition according to each animal's needs.
- Giving the animals companionship, attention and the opportunity to live peacefully in a natural and protected environment.
- Working with employees and volunteers who assisted with feeding, cleaning, maintenance and daily animal care.
- Welcoming visitors and families and raising awareness of animal welfare, responsible care and compassion for older animals.
- Sharing information through our website and social media to increase public awareness of the needs of elderly farm animals.
- Raising donations to help finance food, veterinary care, maintenance and other essential sanctuary costs.
- Offering virtual adoptions, allowing supporters to contribute to the long-term care of individual animals.

Our commitment

The animals at Stichting Habait are not kept for commercial purposes. They receive a permanent home where they can live with dignity, appropriate care and respect for the remainder of their lives.

The foundation's activities in 2025 were made possible through the work of the board, employees, volunteers, donors and supporters. Board members carried out their duties voluntarily and received no remuneration for their work.

Stichting Habait remains committed to protecting elderly and vulnerable animals and promoting greater compassion and respect for all living beings.
